ACCESSORIES & EQUIPMENT

HOLE DETAILS

PAR values, yardage and colors of the tee available can all be defined from the admin panel. Digital 2D images of each hole can also be uploaded

In the mobile app, each hole can be shown as a ready reference with all it's details during the gameplay

SCORECARDS

SUBMIT SCORE CARD

Golfers can submit scorecards for their games played via the app. The scorecard captures multiple details for each hole like drives, sands, putts and total strokes to give a detailed view of the round after finishing.

VIEW

User can view his scorecard and download it using the app version.

Admin panel allows you to view or download the scorecard for all your users.

EMPLOYEES & ROLES

- The master admin can define roles and assign employees to defined roles ✓
- The role contains module which can be accessed when employee logs in ✓
- New employees can be created using an email and password ✓
- Once roles are defined and employees are assigned, a hierarchy of operations can easily be created ✓
- Each employee's activity will be tracked by the system and converted to an on-demand report ✓
- All features available only on the admin panel ✓

Multiple taxes and their varied applications can be added to the system and later chosen when prices are added under any module in the system

ABOUT THE CLUB

Dedicated section to showcase important details and facilities of your club. These details can be managed from the admin panel and can be viewed in the mobile app

GOLFLAN REWARDS PLATFORM

GolfCentra is inherently connected to the GolfLan Rewards Platform. Using this connection, every activity a Golfer does on the mobile app attracts reward points which can be accumulated in a central GRP account linked to the golfer's mobile number/email ID. Using this account, the golfer can additionally access different partner websites and other GolfLan group brands to collect rewards everywhere.
